

P. KARTHIKEYA

Software Development Engineer

karthik02032006@gmail.com | +91 85199 60743 | [linkedin.com/in/karthikeya-p288a10337](https://www.linkedin.com/in/karthikeya-p288a10337) | Hyderabad, India

PROFESSIONAL SUMMARY

Third-year B.Tech Computer Science student with hands-on experience in full-stack web development using React.js, Node.js, and RESTful APIs. Proficient in Python, JavaScript, and database management (MySQL, MongoDB). Demonstrated ability to design and deploy scalable web applications, optimize backend workflows, and deliver responsive UI/UX. Eager to contribute to software engineering teams with strong problem-solving skills and a collaborative mindset.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering

2022 – 2026 (Expected)

CVR College of Engineering, Hyderabad

- CGPA: 8.29 / 10.0

TECHNICAL SKILLS

Programming Languages:	Python, C, Java, JavaScript
Frontend Development:	React.js, HTML5, CSS3, Responsive Web Design
Backend Development:	Node.js, Express.js, REST APIs, PHP
Databases:	MySQL, MongoDB
Tools & Platforms:	Git, GitHub, VS Code
Core Competencies:	Data Structures, Algorithms, Problem Solving, SDLC, Agile Basics

PROJECTS

BharatVerse – Interactive Digital Ecosystem for Living Indian Culture

2025

Technologies: React.js, Node.js, Express.js, MongoDB, REST APIs, JavaScript, HTML5, CSS3

- Engineered a full-stack MERN web platform featuring 5+ interactive modules covering Indian festivals and regional cultural content.
- Built and integrated RESTful APIs for real-time content updates, improving page data refresh speed by 35%.
- Architected dynamic React.js UI components eliminating full page reloads, achieving 100% client-side rendering efficiency.
- Designed a scalable Node.js and MongoDB backend capable of handling 100+ concurrent content records with optimized query performance.

Restaurant Management System – Web-Based Application

2024

Technologies: HTML5, CSS3, JavaScript, PHP, MySQL

- Developed a multi-role (admin, staff, cashier) web application managing end-to-end daily restaurant operations.
- Implemented 10+ CRUD modules including menu management, order tracking, and automated bill generation using PHP and MySQL.
- Reduced order processing time by 40% through database-driven workflows and optimized SQL queries.
- Designed a fully responsive UI with seamless front-end and back-end integration supporting mobile, tablet, and desktop devices.

CERTIFICATIONS

Career Essentials in Data Analysis – Microsoft & LinkedIn Learning

2025

Data Science & Analytics – HP LIFE (HP Foundation)

2025
